BLANCA SIBECAS

SOFTWARE ENGINEER | FRONTEND · MOBILE · FULL-STACK

EDUCATION

**UNIVERSIDAD
EUROPEA DE MADRID**

MASTER'S IN APPLIED ARTIFICIAL INTELLIGENCE
Advanced Machine Learning and Computational Optimization.
(2024-2025)

**THE CORE SCHOOL
ONLINE**

MASTER'S IN VIDEO GAME PROGRAMMING
Video game development, software architecture, and professional programming. (2023-2024)

**EPITECH SPAIN
BARCELONA CAMPUS**

**BACHELOR'S DEGREE IN SOFTWARE
ENGINEERING AND INFORMATION TECHNOLOGY**
Project-based learning methodology. (2020-2023)

**LYCÉE FRANÇAIS
GAVÀ, BARCELONA**

BACHIBAC
French and Spanish dual diploma. (2005-2020)

TECHNICAL SKILLS

Frontend: React, React Native, Next.js, Vue.js, Expo Router, HTML, CSS, Tailwind CSS, Material UI

Backend: Firebase (Auth, Firestore, Functions), Node.js, REST APIs, MySQL, Python

Testing: Jest, Robot Framework

Integrations: Google Maps API, Mixpanel

Programming Languages: JavaScript, TypeScript, Python, C++, C

Tools: Git/GitHub/GitLab, Visual Studio, Docker, Sanity, Figma, Trello, Notion, Microsoft, Slack, Unity, Unreal Engine, Godot

AI-assisted Development: ChatGPT, Claude, GitHub Copilot, Gemini

Methodologies: Agile, Scrum

EXPERIENCE

**NOV 2022 -
JUL 2026**

CTO & FULL-STACK - SHARETOGO

As part of the founding team, contributed to the design and development of ShareToGo, a web and mobile ride-sharing platform built with React Native, Next.js, and Firebase. Implemented authentication, real-time features, and integrations with Google Maps API and Mixpanel. The company was acquired by Waiis in July 2026 with +800 downloads.

**NOV 2025 -
MAY 2026**

REACT NATIVE DEVELOPER - IMMFLY

IMMFLY

Contributed to the development of a retail mobile application using React Native, TypeScript, and an offline-first architecture. Leveraged Claude and Gemini for code migration, documentation, and debugging.

**SEPT 2024 -
DEC 2024**

FULL-STACK DEVELOPER - ESTETICAL

Esteti cat

Migrated an internal web platform to Vite and developed new features with React, TypeScript, and Firebase, improving maintainability and frontend architecture.

**MAY 2023 -
JUL 2023**

QA AUTOMATION INTERN - SOPRA STERIA

Contributed to image-based test automation and proposed migrating validation to direct database comparison, improving reliability.

**OCT 2022 -
FEB 2023**

PROGRAMMING TEACHER - LOGISCOOL

logis cool

Taught programming and algorithmic thinking through interactive activities focused on problem solving and logical reasoning.

**SEP 2021 -
DEC 2021**

FRONTEND INTERN - YEGO URBAN MOBILITY

Developed internal tools with React.js while collaborating within a small Agile development team.
